

HK 3370

STEREO RECEIVER

Sonic purity beyond compare.

Harman Kardon pioneered the high-fidelity stereo receiver more than forty-five years ago, and we've never abandoned the faith. As evidenced by the HK 3370, which understands that "dancing lights" are no substitute for technical substance.

This receiver houses a 2 x 70-watt, high-current, ultrawide-bandwidth amplifier in an elegantly simple package.

And with remote A/B speaker selection and a Harman Kardon system remote, as well as infrared extension jacks, it's one of the easiest to use receivers we've ever offered. The HK 3370.

Where pure sonic enjoyment lives on.
