GO + PLAY™

HIGH-PERFORMANCE PORTABLE LOUDSPEAKER DOCK FOR IPOD

Understated, sublimely functional industrial design. Unsurpassed performance and ease of use. From its flat, protective iPod cradle and smart RF remote to its arching stainless-steel handle, this is the portable loudspeaker dock that only Harman Kardon® engineers could build. The Harman Kardon Go + Play™ loudspeaker dock delivers tight, thunderous bass from high-excursion low-frequency drivers. Just as important, the highs are distinct and crystal-clear. The Harman Kardon Go + Play system is AC- or battery-operated, so it will go anywhere your iPod or other music player goes – and make your favorite music sound better when it arrives. And as a multimedia entertainment center, it even sends your iPod photos and video to a TV monitor. But however and wherever you use it, it's the sound that sets the Harman Kardon Go + Play speaker dock apart.

// Harman Kardon Go + Play™

High-Performance Portable Loudspeaker Dock for iPod

COMPATIBILITY

The Harman Kardon Go + Play loudspeaker dock incorporates the Apple iPod Universal Dock adapter and is compatible with most docking versions of iPod, including nano and 5G versions. A stereo mini jack connection also allows you to enjoy high-quality audio from a variety of other devices, including MP3 and CD players, desktop computers (all platforms) and laptops.

SMART RF REMOTE

The Harman Kardon Go + Play system includes a smart RF remote for two-way communication and superior signal reception. In Music mode, the remote lets you adjust volume, change tracks and fast forward/reverse through songs from anywhere in the room. In Navigation mode, it gives you full iPod functionality. Browse by song, artist or album and select playlists, slideshows and videos just as if you were holding your iPod in your hand.

EASY-TO-USE TOUCH CONTROLS

The Harman Kardon Go + Play loudspeaker dock includes touch controls for convenient tabletop use. One touch increases or decreases the volume; one touch mutes or unmutes the system. And the Harman Kardon Go + Play system remembers your previous settings when the system is powered on.

ADDITIONAL FEATURES

OnePoint design OnePoint iPod connectors provide the connection to your computer. Connect the standard iPod cable to the back of the Harman Kardon Go + Play unit, and every time you dock your iPod, you will have a connection for synchronizing.

Evercharge topology The Harman Kardon Go + Play system will charge your iPod without a computer connection, even when the system is off.

ADVANCED TECHNOLOGY

The Harman Kardon Go + Play loudspeaker dock owes its clear, accurate sound and outstanding performance characteristics to proprietary technologies developed specifically for the realities of multimedia sound.

Atlas™ and Ridge transducers

The dual Atlas woofers are capable of peak-to-peak travel of nearly an inch for tight, accurate bass reproduction, while the dual Ridge high- and midrange transducers produce rich, full-spectrum sound.

Digital power and DSP

The Harman Kardon Go + Play system delivers with a powerfully tuned digital audio path. The clean and compact digital amplification coupled with DSP (Digital Signal Processing) equalization efficiently provides the Harman Kardon Go + Play transducers with cool-running power.

Slipstream port design Proprietary port architecture improves bass output while minimizing distortion.

AEMS (Advanced Energy

Management System) The Harman Kardon Go + Play system can operate for up to 16 continuous hours at nominal listening levels with eight fresh D batteries (including NiMH and other rechargeable batteries). To extend battery life, the Harman Kardon Go + Play unit automatically enters Sleep mode in the absence of an input signal. The system awakens at the previous volume level with just a touch.

COE (Computer-Optimized Equalization) Proper equalization greatly improves stereo imaging. The Harman Kardon Go + Play system is computer-optimized for an all-encompassing, 360-degree sound-stage.

OCT (Optimized Compression Topology) A proprietary compression technology ensures clean, accurate sound at high output levels.

TECHNICAL SPECIFICATIONS

Manufacturer:	Harman Kardon, Inc.
Model Name:	Harman Kardon Go + Play™
Available in:	Matte Black, with stainless-steel details
Input Requirement:	Main connection – iPod docking connector Auxiliary connection – 1/8" (3.5mm) stereo mini jack; S-video connection
Drivers:	Two Ridge and two Atlas™ transducers
Power:	2 x 30 Watts for tweeters, 2 x 30 watts for woofers
Frequency Response:	40Hz – 20kHz
Dimensions:	Length – 20" (508mm) Width – 9" (230mm) Height – 9.5" (240mm)
Weight:	8.6 lb (3.9kg)
Input Impedance:	>10k Ohms
Signal-to-Noise Ratio:	>85dB
Voltage Input:	120V AC U.S., 100V AC Japan, 230V AC Europe
