

HARMAN KARDON® HEADPHONES **NI**

Introducing the NI model in-ear headphones, part of the first-ever line of Harman Kardon® headphones. Blending sophistication and simplicity, acoustics and aesthetics, NI headphones embody the essence of "Beautiful Sound."

Beautiful sound. To go.

Drawing from a rich heritage of acoustic innovation, Harman Kardon® NI headphones employ optimized drivers that produce accurate bass and sound clarity even at low volumes. The in-ear headphones feature silicone sleeves in three sizes for optimum comfort and an Apple three-button remote with built-in microphone for phone calls. The rectangular shape of the black sculpted housing complements the style of companion iPhone, iPad and iPod products. Lightweight and comfortable, NI headphones let you take Beautiful Sound with you wherever you go.

From high-quality materials to exceptional acoustic performance, these new headphones reflect the Harman Kardon commitment to innovative industrial design and uncompromising sound quality.

Highlights

- Sophisticated, modern design
- Optimized driver system
- Sonic clarity and accuracy even at low volume levels
- Black sculpted, beveled housing
- Silicone sleeves
- Apple three-button remote with built-in microphone
- Heavy cable and durable plug

Made for

KEY FEATURES

HARMAN KARDON® HEADPHONES NI

A triumph of craftsmanship and audio engineering, Harman Kardon headphones are designed for those with an eye for style and an ear for sound.

Sophisticated, modern design

Harman Kardon NI headphones offer high-tech performance wrapped in an elegant package and interface. With their blend of aluminum and black, the NIs' design and function complement Apple products while reinforcing the sophisticated elegance of the Harman Kardon brand.

Optimized driver system

High-performance 3/8-inch (9-millimeter) drivers generate an excellent frequency response (20Hz – 20kHz), wide dynamic range and high sound-pressure levels. They also produce accurate bass at any volume level.

Sonic clarity and accuracy even at low volume levels

The NI headphones' acoustic engineering and passive noise-reduction mean that you can hear music and other audio content clearly at low volume levels, so you can enjoy all the music definition without all the volume – and that's safer for your ears.

Black sculpted, beveled housing

The rectangular housing complements the shape of companion iPhone, iPad and iPod products, while the beveled surface underneath the housing enhances in-ear comfort.

Silicone sleeves

Three pairs of sleeves (small, medium and large) are included. The choice of size ensures maximum comfort – and minimum ambient noise – in the ear canal.

Apple three-button remote with built-in microphone

Made specifically for use with iPhone and iPod, the streamlined remote offers familiar controls for audio playback and phone calls.

Heavy cable and durable plug

The cable on the NI headphones features a metal plug, and the elastomer-coated cable resists tangling. High-quality materials help the cable and plug last longer.

Carrying case

Beautiful sound is worth protecting. Harman Kardon NI headphones come with a carrying case that keeps the silicone sleeves from getting lost and reduces cable tangling.
