

## HARMAN KARDON® MUSIC AND THEATER 2000

Complete 5.1-channel entertainment system with 95-watt receiver, compact speaker/subwoofer system and The Bridge IIIP

You've come to expect Harman Kardon<sup>®</sup> products to deliver advanced performance characteristics. But to be worthy of the Harman Kardon name, our systems must also be easy to set up and use. The Harman Kardon Music and Theater 2000 system is a complete, 5.1-channel entertainment package featuring the advanced AVR 1650 receiver (which delivers a maximum number of features with a minimum number of buttons), the HKTS 16BQ speaker and subwoofer system, and The Bridge IIIP docking station for iPod and iPhone devices. These stunning components employ the industry's most advanced technologies, guaranteeing you the highest possible audio and video quality from any media source, old or new, automatically. A single, intuitive remote controls the entire system as well as your TV and virtually any other component you may choose to connect. The Music and Theater 2000 is a highly sophisticated, all-inclusive home entertainment system. But you won't need an in-house technician to enjoy it.

#### Harman Kardon® AVR 1650

Features	Advantages	Benefits
95-watt, 5.1-channel amplifier	An ultrawide-bandwidth, high-current design that delivers great phase linearity, low distortion and accurate frequency response	Extraordinary clarity and dynamic impact
HDMI <sup>®</sup> v.1.4a with 3-D, Deep Color and Audio Return Channel	True high-definition digital video and full-resolution audio with no conversion or compression	The highest possible video and audio quality
Dolby <sup>®</sup> TrueHD and DTS-HD Master Audio <sup>™</sup> decoding	Next-generation lossless audio technologies for sound that's identical to original studio master recordings	Music and movie soundtracks as their creators meant you to hear them
Logic 7 <sup>®</sup> processing	Creates a five-channel or seven-channel surround-sound experience from two- channel source material	Adds new depth and realism to older audio recordings
The Bridge IIIP connectivity	Listen to music from any iPod or iPhone device with a docking connector, navigate menus and select audio and video tracks from across the room with your AVR remote control, and charge your device while it's docked	Easy access to your iTunes music and playlists
EzSet/EQ <sup>™</sup> room optimization	Automatically balances speaker-channel levels for room acoustics	Optimum surround-sound imaging
Four HDMI inputs	Connect up to four separate digital sources	Highest possible picture and sound quality
